MERCHANTS TO HAVE SECOND SPECIAL DAY

High School Band To Play Concert at 2:30 p. m.

BIG CROWD COMES

Cash Will Be Distributed From West Side of the Square

Another cash distribution day will be observed Saturday by the business and professional firms of Canyon when customers will realize the benefits of doing their trading in Canyon.

A large crowd gathered Saturday at 3 o'clock at the bandstand when \$40 was distributed among those who made purchases in Canyon last week. Clyde Warwick announced those who profited by trading in Canyon, as the event was supervised by W. A. Warren, chairman of the Chamber of Commerce Committee. A. C. West, J. R. Sharp and B. T. Johnson were called from the crowd to assist in the distribution.

Those who profited last week were A. B. Russell, Shorty Vanarsdall, Miss Pat Campbell, H. Bethurem, B. T. Johnson, Mrs. J. T. Service, Miss Jean Mickle, D. E. Layman, and Mrs. M. E. Nelson of Claude.

The high school band was unable to play last Saturday owing to so much sickness, but promises to be present next Saturday if the weather permits. A concert will be played at 2:30 o'clock until 3:00 when the cash distribution takes place. This distribution will be made from a truck on the west side of the square on Saturday this week. Citizens are urged to be present at 3:00 o'clock.

Canyon business men were highly pleased with the results of the first week's effort in Canyon, and promise more and better bargains next Saturday for those who come to Canyon to participate in this weekly event. The present campaign will continue weekly until December 29th, and may continue through January if there is a demand for it on the part of the people of Randall county. Those who appreciate the present plan of the Chamber of Commerce are invited to express an opinion to members of the committee, composed of W. A. Warren, C. L. Thompson, and Porter Pierce.

Christmas Program Will Be Given By PTA on Dec. 20th

The Canyon P. T. A. will have a Christmas program and Christmas tree Thursday evening, Dec. 20, at 7:30, in the Canyon High School auditorium. Everyone is invited to come.

This program will be especially interesting to the children. Miss Ruth Lowes will tell a Christmas story, and slides showing Christmas in other lands will be shown. Pop-corn balls and many other interesting things will be presented. All the grade school children are urged to come and bring their parents.

The executive committee will meet Monday, Dec. 17, at 1:30 p. m., to attend to all business.

SISTER IS INJURED

Mrs. C. A. Murray received word Friday that her sister, Mrs. Oswald Cole and her three daughters were seriously injured in a car accident at Rule. All are in the hospital, one of the girls being still unconscious and another one suffering a fractured skull.

Cattle Buying Will Close December 31

Farmers Must Sign Up For Cattle Offered For Sale

Additional cattle were added to the quota of Randall county last week, which is sufficiently large in number to take care of every head which may be offered to the government, states County Agent W. H. Upchurch.

Yesterday practically cleaned up the buying which had been listed in Randall county. Those who have more cattle to sell to the government are given the opportunity to make their listings at the County Agent's office at once, since it is likely that the buying campaign will close permanently before the end of the month.

According to best information about half of the normal number of cattle of Randall county have been removed during the past few months. The government has bought about 10,500 head, and there are signed up about 500 head more. Other cattle have been shipped to pasture in other sections.

The buying crew which has been working in Randall county has been assigned to Armstrong county for Friday and Saturday of this week, and to Deaf Smith county for Friday and Saturday of next week.

Every farmer in Randall county who has any cattle to sell is urged not to pass up the opportunity next week, Monday to Thursday, as it is altogether possible that the buying campaign will be closed even by Christmas.

Former Pastor in Talk at Rotary on Subject Fellowship

Rev. Frank M. Neal of Amarillo, former pastor of the local Methodist church, spoke Tuesday at the Rotary luncheon on the subject of fellowship. G. G. Foster, chairman of the Fellowship committee, was in charge of the program.

Three points were emphasized as essential to fellowship: association, sympathy and co-operation, stated the speaker. Fellowship is the science of living with people. There was a time when men foolishly said that America could live within itself, but the depression taught us the fallacy of this statement. God made man a social being, and ordered his life in a social manner. The days of the lone wolf are passed.

Rev. J. R. Hicks invited the club members to hear Dr. Holcomb during the revival services at the Baptist church.

Visitors present were: W. A. McIntosh, N. H. Moore, Rev. Neal, L. J. Peterson, of Amarillo; Dr. T. L. Holcomb of Oklahoma City; Rev. J. R. Hicks of Canyon.

Francis H. Gott Moves Here As Inspector of Park

Francis H. Gott of Rochester, N. Y., has moved his family to Canyon after visiting a number of places in Arizona, New Mexico and Texas where his duties call him as assistant National Park inspector. He will have direct supervision of the work being done at the Palo Duro State Park. George N. Nasson is chief inspector for Texas, with headquarters at Austin.

Park officials are highly pleased at the location of Mr. Gott in Canyon, as this means much closer supervision of the work on the Park, and the possibilities that greater developments of the Park will be made in the future.

The family lives at 1410 Seventh avenue.

Processing Tax Must Be Paid on All Meats Used

A strict enforcement of the processing tax on meats is being planned by the internal revenue department, of the government. Meat markets are visited frequently and check made on their sales in order to collect the processing tax.

Many farmers have been butchering and selling meats without knowing that the processing tax must be paid.

Those who butcher and fail to pay the process tax are not alone liable for the tax, but those who buy this meat are subject to the tax and to prosecution. Boarding houses and public eating places which serve meats on which the process tax has not been paid may be subject to a heavy penalty for their part of this tax evasion.

Farmers Attended Congress Held at Dallas Last Week

The annual Texas Agricultural Congress was held in Dallas last week with representatives from all but one of the 254 counties in the state. The congress is largely a gathering of co-operative organizations of the state.

Among the farmers of Randall county present were: J. B. Fox, M. H. Rockwell, R. B. Gist, E. W. Schaeffer, Frank Walters and S. C. Whitman. Worth A. Jennings and J. P. Hix represented the Consumers Fuel Association.

Sheriff Bob Barnett left Tuesday on a business trip to Austin.

Enlarged Office of County Agent Being Planned

The Commissioners Court voted Monday to make changes in the court house for the purpose of giving more space to County Agent W. H. Upchurch. Members of various farm committees made the request owing to the fact that the agent's office has been so cramped for room due to the large amount of business being transacted there.

The men's toilets are being moved to the northwest corner of the court house in the boiler room, which is being remodeled for that purpose. The present toilet room will be remodeled and used for the enlarged space necessary for the county agent.

County and City Increase Support for County Library

Randall County's library will be operated free for all patrons after the first of January, according to agreement reached yesterday. The Commissioners' Court and the City Commission have both increased their monthly donations to the library, requesting that it be made free to the patrons.

The following report was adopted yesterday by the Woman's Book Club, which sponsored and made possible the opening of the library.

"The commissioners of our county have voted to increase the amount for library maintenance from \$25.00 to \$50.00 and the City Commission to increase from \$25.00 to \$35.00, and each asks that there be no further fees charged for books checked out. The increase in both instances, as stipulated, to be used for the purchase of books and such supplies as will increase the efficiency of the library.

"In view of this amount having been granted, the committee recommends that the County Commissioners Court and the City Commission each be asked to name a representative to act on a committee, or library board, with representatives from the Woman's Book Club and from the Junior Woman's Club, and that as soon as the plan can be perfected all present acting committees on library be dissolved and that all other committees come out of this board.

"The committee further recommends that beginning January 1st, next, no fees be charged for checking out books."

Respectfully submitted,
MRS. S. L. INGHAM,
Chairman Library Committee.
By Mrs. Dan K. Usery,
Acting Chairman.

Body of Young Man Found North of City by Boys

Two boys discovered the decomposed body of a young man almost buried in a gully along the Santa Fe right-of-way Thursday afternoon. The location was about 6 1/2 miles northeast of Canyon. The body was almost covered, officers believing that the winds and rain had accomplished this.

The body was so badly deformed that no identification could be secured of the man. It is thought that the body has been there for several months.

The only marks found was part of a letter written from Winthrop, Arkansas, dated May 7, 1930. The date line, and the signature, L. D. Borden, were the only parts of the letter found. A message to Mr. Borden has brought no reply as to the identity of the man.

Sheriff Bob Barnett, City Marshal Frank Hicks and County Judge S. B. Orton were called to the scene, and took such information as might prove valuable for the location of friends or relatives.

MOVE MONDAY TO NATIONAL FOR BUSINESS

State Ordered Liquidation By Stockholders Saturday

OFFICERS NAMED

Wright and Oldham Are Named Officers of National

Merger of the two banks in Canyon was completed Saturday night, following the consideration of this question for several months. Offices were opened Monday morning for the First State Bank in the banking house of the First National where transfers of deposits from the First State to the First National are rapidly being made.

Directors of the First National have increased the board from five to seven, and added R. H. Wright and Grady Oldham to the board of directors for this institution. They were named Vice Presidents at the same meeting. As constituted at present the following are officers and directors of the First National Bank: J. W. Reid, President; R. H. Wright, Grady Oldham, Oscar Hunt, Clyde Warwick, Vice Presidents; W. C. Black, Cashier; L. W. Cole, Assistant Cashier.

Those who have business with the First State will find the officers and directors available at the First National where the business of the First State will be completed as rapidly as possible.

Letters were mailed Saturday night to all depositors of the First State Bank notifying them of the merger. Under the law public notice must be given of the liquidation of the First State. If at that time there are any deposits which have not been withdrawn, the money will be sent to the state treasury. Every effort will be made to locate all of the depositors and give them their money.

Both banks were in splendid shape when the merger was affected. The assets and furniture of the First State were bought for cash by the National, which gave this institution sufficient money to pay off their depositors and their stockholders in full. For many months it has been apparent to stockholders of both banks that the continuation of two institutions was unprofitable and that a merger should be effected. Unanimous agreement was reached among the stockholders of both banks that the present arrangements should

Charles C. Gibson Has Charge of Farm Census for District

Charles C. Gibson of Amarillo has been appointed to have charge of the 1935 farm census which will be taken the first of January.

Mr. Gibson will select two enumerators for Randall county, according to information received from Congressman Marvin Jones. Applications may be filed with him, and so far about thirty farmers have applied for these jobs. An examination will be held before the final selection is made.

It is stated that the work will last for about 15 days, and will pay about \$4.00 per day.

City Takes On Spirit Of The Christmas Time

With Christmas decorations on every hand, Canyon has taken on a real Christmas atmosphere. The decorative lights of the Chamber of Commerce were put up Tuesday and will burn every night until after the holidays.

Christmas lights and decorations have added to the attractiveness of the shop show windows. Many of the stores have put up attractive interior decorations to add to the festivity of the holidays. Christmas goods are on display in all of the stores.

Evette Haley, well known in West Texas, "made" the Saturday Evening Post last week with an article on the cattle business. Various opinions have been expressed regarding the merits of the article. The writer devoted most of his space to a criticism of the agricultural program of the government, but unfortunately failed to make any recommendations which might have gone toward the relief of the distressed farmer and cattle raiser. Since the Saturday Evening Post is a chronic objector to the program of the President, it places Haley in the position of one who would stand on the side line condemning the action of the Chief Executive without offering any sort of relief in a time when relief was necessary in order to prevent a collapse of a great industry. There are many such objectors at the present time. Al Smith and other prominent Democrats have out their little hammers, and are dinging away with Herbert Hoover on the program of the President. While no one claims to have a clear cut vision of what is going to happen, or a sure shot cure for the present ailments of the world, not even President Roosevelt, the majority of the people believe that an honest try is better than a failure without an effort. The November election showed very clearly that the American people still have faith in the experiments of the President, although many of these attempts may prove to be dismal failures. But Evette Haley is to be congratulated upon getting his article in the most widely distributed publication in America. Perhaps his criticism may offer some good suggestions to the administration in handling this difficult problem.

Another outlaw has been killed at the hands of the officers. Surprising as it may seem, there are thousands of mushy sentimentalists in this good Panhandle who have actually condemned the officers of Potter county for not giving this outlaw a chance to kill.

half a dozen officers. The outlaw knows that he has public sentiment on his side, which makes him braver to do his dastardly deeds. Fundamentally the outlaw is dumb. He is so dumb that he thinks he is smarter than the officers. The thrill of robbery and murder keeps him up for his desperate deeds. He actually believes that his smartness will make it possible for him to evade the law. The most disgusting feature of all this business is that one of these outlaws can come into any community, rob and kill among the most prominent and useful citizens of the community, and then the very fellows who are condemning the officers for not enforcing the law will be on the side of the outlaw should the officers chance to shoot him down. There is something warped with the imagination of the American people at this time. If you want to hear the officers soundly cussed for doing their duty, just go into one of these communities where the officers have shot down a good for nothing desperado who has nothing but a record of crime behind him. It's time that the American people get on the side of law enforcement, and back up the officers to the fullest extent.

After several months of deliberation, the two banks of Canyon were merged Saturday and beginning Monday morning the First State Bank started the process of liquidation. The two banks have rendered excellent service to this community, but the amount of good loans was not sufficient to warrant the continuation of the two institutions. Mergers of banking institutions have taken place in practically all towns in order to serve better the needs of the local communities. Canyon is very fortunate to have had two good banking institutions during the past tragic years when so many institutions have been in difficulty. Since the banking holiday, with the new laws on banking, only seven banks have been forced to close in the entire United States. In only two instances was there a charge of mismanagement. The depositors were protected in all closed banks. During the past year forty-seven banks have liquidated on account of the lack of business in their communities. Banking has returned to a sound basis after the spree of 1929 when so many institutions failed. The New Deal has wrought wonders for the depositors and likewise for the conservative bankers who have tried to protect the people of their communities. While there are now many less banking institutions in America, they are all sound, and carefully supervised, not only by their officers and directors, but likewise by the government.

In one instance President Roosevelt made a serious error in appealing to the people of the United States. He told how the repeal of the 18th amendment would restore prosperity, put men to work, improve farm prices, bring revenue to the government, and abolish the bootlegger. All of this has proven to be a mistake. The bootlegger still thrives, and the government

Conducts Revival

DR. T. L. HOLCOMB

Dr. T. L. Holcomb, pastor of the First Baptist Church of Oklahoma City, is preaching at a revival meeting at the Canyon Church this week.

The services started Tuesday night and will continue twice daily until next Tuesday.

Dr. Holcomb is recognized as one of the most prominent pastors of the Baptist Church and his services are being largely attended while in Canyon.

Rev. J. R. Hicks, pastor of the local church, has invited all people in Canyon to attend this revival meeting.

admits now that it is not collecting revenue on the liquor consumed. The wets are in the saddle, but they are having a serious time explaining their campaign promises. In addition to this, automobile wrecks have greatly increased due to the drunken drivers, while hospitals report a great increase in emergency cases. The President should tell the nation that he made a mistake, and advocate that the liquor traffic be curbed.

In times past whenever the subject of a new postoffice was mentioned, the excuse has been that the postal receipts of Canyon were not sufficiently large for a building. Postmasters' salaries are based upon postal receipts. Memphis and Shamrock have secured new post office buildings, and their receipts are no larger than those in Canyon. The Chamber of Commerce will have one big objective during the coming year—to secure a postoffice building for Canyon. The receipts of the local office are growing rapidly. The government could well afford to place a new building here while building costs are so low and labor cheap. If you are interested in a new building, a letter to our congressman and our United States senators would help.

The United States has issued a warning to Japan in its demand for a navy equal to this country. Past wars and preparation for future wars take the major portion of every nation's taxes. The nation which is best prepared for war is the one which other nations hesitate to draw into a fight. Japan seemed very anxious to stage a fight with Russia, until that nation proved to have a superior air force, and a good number of submarines. Unfortunately, over-preparedness often makes a bully of a nation, as well as piling extremely heavy taxes upon the people of the nation.

The big crowd in town Saturday was highly pleased with the first cash distribution of the Chamber of Commerce. A larger crowd will be here next Saturday to take advantage of the many special bargain offerings of the business houses in Canyon. Canyon is a good place in which to trade, and the people of Randall county are especially urged to come here to do their weekly buying.

Lucy Blair Is Named Queen of W. T. in Election

Miss Lucy Blair, a member of this year's graduating class in West Texas State Teachers College, and from Spur, Texas, has been named by the student body at large as the All-Queen of W. T. for the year 1934-35, according to announcement made public by G. L. Stanley and Bill Pittman, Saturday afternoon, Dec. 8th.

The announcement was made following a two-weeks' contest for the coveted title of All-College Queen, a title for which ten of the institution's most beautiful and most popular co-eds were nominated by the student body.

The coronation ceremonies are to be conducted by the Pi Omega organization of the school, as is the annual custom. The Pi Omegas have been planning for some time on the coronation services, and the affair bids fair to be the most elaborate school function of the year. Funds for the services were raised at the Home-Coming dance near the start of school this year.

A complete coronation program has not been announced as yet, but a committee, headed by Miss Frances Holman, president of the society, and Mrs. A. M. Meyer, sponsor, is working out the affair to the most minute detail. Present

plans call for the program's presentation on Thursday night, Dec. 20, at 8:15 o'clock in the auditorium of the Administration Building. Miss Frances Clark, who is aiding in planning the affair, has announced. A formal reception for the queen and her court is to be held immediately following the crowning of the queen, Miss Clark said. The place of the reception, has not been definitely decided upon.

Miss Blair will be honored with a full page photograph and a full-view inset in this year's school annual, Le Mirage, Bill Pittman, editor, and G. L. Stanley, business manager, stated. The next four highest girls in the race for College Queen will also have full page pictures in the annual as the queen's attendants, it is said. These girls are Misses Elizabeth Jameson, Shamrock; Helen Martin, Groom; Frankie Dodson, Lockney, and Louise Gibson, Snyder.

The contest, which opened Tuesday, Nov. 27, was conducted on a popularity and a money basis. Every student in school was permitted to vote for his choice, and additional votes were sold at a penny each. During the last four days of the race, a run-off was held, at which time each vote counted a greater number of points towards determining the winner of the race. Each penny counted forty points last Wednesday, the first day of the run-off, thirty points on Thursday, twenty points on Friday, and ten points Saturday up until the closing of the polls. Miss Blair won first in both the popularity and the money contests.

Approximately \$125.00 was taken in from the contest, and will be used to help defray the expenses of publishing the college annual this year.

The five winning co-eds and their campaign managers are Lucy Blair, J. C. Baker; Bib Jameson, Stanley Williams; Frankie Dodson, Ezell Champion; Louise Gibson, Solon Smith; and Helen Martin, Gerald Brown.

Baggett Pleased With Training

No Schedule Has Been Arranged Yet

At the end of the first week of training, Coach Baggett would not commit himself as to the basketball team except to say that he was well pleased with the prospects so far.

Among the candidates reporting were six letter men from last year's team, John Walker, Edd McMinn, Ted Phillips, Willie Boedeker, Curtis Clement and Leonard Britt were the veterans returning, around whom Coach Baggett probably will form the nucleus of his team.

McMinn Promising
Walker stands six feet four inches tall, and was the regular center last year. He weighs 210 pounds and is expected to play his best year of basketball this year.

Edd McMinn of Kirkland was a regular forward last year. Mac is six feet two and one-half inches tall, is 20 years old, weighs 187 pounds.

Britt Consistent
Ted Phillips is only five feet nine inches tall, is fast and aggressive, and made lots of the tall boys look bad last year when he was guarding them.

Although not a regular last year, Willie Boedeker added strength at crucial moments as either a center or a guard. Boedeker is six feet four inches in height, and will probably spend his time this year at one of the guard positions.

Leonard Britt of Canyon is six feet, one and one-half inches tall, weighs 175, and is a consistent scorer.

Squadmen Back
Curtis Clement, reserve forward last year, is six feet even, and is a fast, steady hard-working player. He weighs 152 and comes from Wellington.

Six members of last year's freshman squad are reporting with good chance of making varsity material. Two squadmen have returned, four transfers and two novices make up the material which Baggett has to work with.

M. E. Cleavinger and Elbert Hyman are the squadmen, and Robert Bates, Laurence Clark, Jack Davis, Audell Kimmins, Marvin Myers, and Joe Smith are the freshmen prospects.

R. D. Wheelock of Silverton, Vernon Johnson of Childress, and Ray Vineyard are the transfer candidates. Wheelock comes from Wayland, Johnson from Texas Military, and Vineyard from Amarillo College.

No schedule has been arranged for the Buffaloes yet, but Coach Baggett goes to Dallas this week end for a meeting of the coaches to form the schedule.

An Ideal Gift

For a gift that would combine a necessity with a luxury what can you think of that would be a more ideal one than A PAIR OF NEW STYLE FUL-VUE PINK GOLD SPECTACLES—A GIFT THAT WOULD BE A CONSTANT REMINDER OF THE GIVER not only thruout the next 12 months, but for years to come.

LOOK AT THAT OLD OUT OF STYLE, WORN OUT PAIR OF GLASSES ON MOTHER'S OR FATHER'S EYES AND THINK IT OVER.

We have a plan whereby you may give a pair of glasses all packed in a lovely case, and a beautiful Christmas box as a surprise gift, and after the holidays the one receiving them may call and have a complete eye examination in our modernly equipped offices, a frame of their own selection correctly fitted to their face and lenses ground from our specially prepared prescription to meet their exact requirements, and at no extra charge to them.

And for less expensive gifts allow us to suggest Shopping Oxfords, spectacle or eye glass frames for the patient's present lenses, eye glass holders, cases, etc., all useful necessities.

I. E. S. BETTER SIGHT LAMP

This tag marks the difference

Because some models of this new lamp look little different from ordinary lamps, this tag was

developed. It certifies that the Electrical Testing Laboratories, famous engineering organization in New York, has made exacting tests and found that the lamp bearing it conforms to the new sight-saving specifications. Let this tag guide you to the new lamp designed to save eyes.

The Sight Meter measures light. Under the Better Sight lamp it registers 20-30 footcandles—the right light for studying.

The I. E. S. Better Sight lamp was designed with one dominating purpose in mind: to make study or reading easier and less tiring for young and old.

To achieve this result, eyesight specialists and lighting engineers worked together, creating the specifications of a radically new lamp. How well they succeeded is indicated by the sponsorship given the I. E. S. Better Sight lamp by these authorities:

Specifications by: The Illuminating Engineering Society.

Certified by: The Electrical Testing Laboratories.

Endorsed for Lighting Effectiveness by: The Lighting Committee of the Edison Electric Institute, and the National Better Light-Better Sight Bureau.

Scientists Seek Their Origin

In the near future, two American scientific expeditions will be on lonely Easter Island in the Pacific ocean, seeking to plumb the mystery which cloaks the building of the great stone faces pictured above, which, perhaps for centuries, have gazed bleakly out over the sea. Allan Hancock Expedition for the Smithsonian Institution and the Templeton Crocker-American Museum of Natural History group have set sail for the islands.

Christmas Fund For Legion Will Profit from Show

In order to raise funds for the Christmas Charity Fund the local post of the American Legion in Canyon is sponsoring "The House of Rothschild," Sunday, Monday and Tuesday, Dec. 16, 17, and 18. W. J. Wooten, owner and manager of the Olympic Theater is donating fifty per cent of the proceeds of all tickets sold by the Legion members.

"The House of Rothschild," is recommended by the English Department at the College, and is advertised as one of the outstanding pictures that has been shown in Canyon this year.

Over eight hundred packages of fruit, candies, and nuts were distributed among unfortunate families from this fund last Christmas by Palo Duro Post and the Ladies Auxiliary. If you plan to attend this show—help the Legion spread Christmas cheer among the unfortunate kiddies in Canyon, and Randall County, by purchasing your tickets from one of the following places: Any Legionaire, Jarrett Drug, Walker Drug, The City Pharmacy, The Buffalo Drug.

Let's help the kiddies have a Merry Christmas!

Wonder what becomes of all the furniture that is too old even for poor folks and not yet old enough for rich folks?

Mother knows best. And maybe that's the reason a lot of girls always let her do the sweeping, scrubbing and dish washing.

The only thing that ruins a shopping trip for a wife more than taking her husband along is taking an empty pocketbook with her.

Park Architect Makes Inspection of the Palo Duro

Roy F. Lane, chief architect for the Texas State Parks Board, was here Friday and Saturday inspecting work on the Palo Duro State Park. He came in the place of D. E. Colp, chairman of the board, who was again detained from making this inspection.

Together with Major E. A. Kingsley, Mr. Lane inspected the proposed park at Quitaque. Mr. Lane stated that it was likely that another state park would be established at that place if title to the land could be secured.

EPISCOPAL CHURCH

Next Sunday night, Dec. 16th, there will be a midnight service of Holy Communion at this church, which will be our regular Christmas service. All who wish to attend, after the evening service of other churches, are invited to assemble at the Little House of Fellowship, where they can pass the intervening time in comfort.

The service will begin with the singing of Christmas carols at 11:30, in the church. Rev. Warwick Aiken will administer the Holy Communion at twelve o'clock, after the singing of "It Came upon a Midnight Clear." At the end of the service, all will join in the "Gloria in Excelsis," which was the song of the heavenly host at the birth of Christ.

All interested are invited to take part in this beautiful and always impressive service.

Bishop Seaman visited Canyon last Sunday night, and administered the ancient apostolic rite of Confirmation, preaching a sermon appropriate to Bible Sunday, for which the Second Sunday in Advent is set apart. All hymns and prayers were in thanks for the gift of the Holy Scriptures.

Cactus Cal

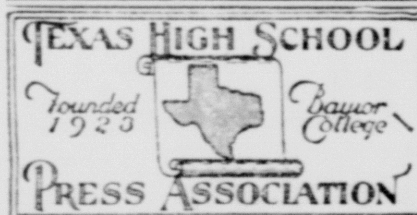

Believe me, that was sure one good Banquet that the football boys were given. I know because I was there, and believe me, there sure was some party Exes that served the Banquet, and believe me, I purty near caught one, only "Scoop" Ellison was on the outside waiting for her.

But after all, I know that the Boys and Girls want their parents to know how much they enjoyed the banquet, so you boys and girls go tell them how much you enjoyed it.

You know, I been getting help from the seniors in writing this letter and if you want tell anyone, I'll tell you who it is. It's Edith Steen, Pee Wee Lowe, Mary May Harrison and Wade Johnson.

Am I getting tired of English, I should say I am! And believe me I'm going to drop it next week because I'm sick of having people in my class making fun of me. Anyway, some people say that you can't teach an old dog new tricks. However, Israel can't understand what I'm saying when I talk my good English, so I just think that I will stop going to school so that I can plow the field.

I think a lot of C. H. S. and their purty girls but I just can't stay away from my farm any more, and you all know that a fellow has to make a living.

Yours,
CACTUS CAL.

Eagle Basketeers Go Into Action Fri.

The Canyon High School Eagle cagers will go into action for the first time this season against the Amarillo Yarnigans at Amarillo Friday afternoon.

The past two weeks of practice have been spent in shooting goals, passing, and working on plays, all of which will be used in their efforts to make this season a successful one. Curtis Ellison and O. M. Solomon, Eagle cage veterans of two year letter rank, will lead the virtually inexperienced team toward the goal of victory as they attempt to down their rivals throughout the season. The line up is unknown as yet and will probably not be fully decided until the players are seen in action Friday.

Third Grade Visits Museum to Follow Indian Lore Study

The third grade with the supervision of Misses Black and McClanahan, visited the museum to study the different Indian relics, Thursday, Dec. 6th.

The trip to the museum was a continuation of their study of Indian lore; this group saw many objects which are not placed on display because of the limited space. This study has covered several weeks' work.

Close observation was made of the rock instruments and other Indian objects. When they returned to their work, each student wrote a story of the visit. The following story was written by Andy Lee Walsh, Jr.

"I went to the museum in the bus. I saw the picture of Mrs. Goodnight's old cow, Old Blue. His skeleton is over the door to the basement. The rattle snake was dead, only stuffed. There was a tumbleweed with a bird's nest in it. There were deer heads on the first floor. I saw the Indian things and a cannon, a machine gun, and some bullets."

Two Assemblies Held Thursday

If you are a guest, are you ever asked to come again? "A second invitation is really a compliment," says Beatrice Pierce, from the December issue of the American Girl, which was read by Miss Lois Goodrich in girls' assembly, Thursday afternoon at 3 o'clock.

Guests who are never asked to come again are the restless person who never know what to do the minute their hostess leaves them; the bookworm who is continually reading a book and never finds time for amusements; the person with over-enthusiasm; and the helter-skelter guest.

Week-End Etiquette

When you do not know your hostess, it is best not to accept her invitation. If you are spending the week end with your hostess, it is her place of make the first move to go to bed. Be sure to find out what time breakfast is to be served. If there is a family quarrel, do not take sides; merely pick up a book and try to read it whether it is interesting or not. Do not go on a skating party if you have never been on skates before, because you will bore your hostess and her guests. Do not prolong your visit. Have a definite time for your departure. Be sure to write a note of thanks to your hostess for your lovely week end.

Pope Talks to Boys

Mr. John B. Pope was the speaker at the boys' assembly Thursday. After announcements were made, Mr. Pope told of his trip to England after his graduation from Harvard University. While in England, he visited the British Museum, the English and Scottish Lakes, and saw the King and Queen.

The speaker said, "The Queen was dressed in the fashionable clothing of the 'gay 90's', and I read in the paper last week that the Queen had bought a new hat."

PING PONG SETS FOR C. H. S.

A large indoor baseball is also to be added to the playground equipment. Indoor baseball will be played in the high school gym.

Mrs. T. M. Collins spent the week end in Claude.

Lorna Cone visited relatives in Floydada.

Hereford Invites Canyon to Debate

The Canyon High School received a letter from Miss Stacia Irene Crawford of Hereford High School wanting two practice debates, Wednesday, Dec. 12 at seven o'clock. Robert Orton, president of the Canyon club replied, saying that the club would not be prepared Wednesday, but would be any time after that date.

Mr. S. H. Condon and Mr. Herschel Coffee of the College, have consented to help the debate club by furnishing information and advising the club on different points brought out.

The question for debate this year is, "Resolved: That the Government Should Own and Operate all Public Utilities."

The club had a practice debate with Carolyn Mayfield and Lorenzo Wirt speaking on the affirmative and Hal Gamble and Billie Louise Greenfield upholding the negative.

At the end of the debate Mr. Pope, coach, brought out several main points to be emphasized.

Mr. O. T. Barker spent Saturday in Panhandle.

Seniors of '35 Celebrate With Annual Banquet for Reunion in '55

"Lorenzo's orchestra drove Cab Cal loway broke, Go ahead and laugh, but that's no joke.

"Jackie and Thelma are somewhat the same, They're both teaching school under the same name.

"There is Miss Kirk—I mean Mrs. Brooks, And Edd, her husband, has been writing books."

So intoned Mr. Estill Furlow, toastmaster, and poet for the last 20 years, to the English class reunion in 1955.

World famous editors, grave business men, wild game hunters, Yale football coaches, promoters of vegetable pill diets, robot education, and short and romper costumes were gathered around the banquet table with pills for eats, in the 1955 reunion (alias, an English oral composition assignment).

Miss Thelma Bryant or rather Mrs. Sherlock Holmes Smith, who was killed last night, was able to attend the banquet by means of the late scientific device by which she had been brought to life for six hours during which time she attended the banquet.

Journalism, War and Complexions

Journalists Hold Hunt; But Not For Stories

"Have you a pair of black cotton stockings or a picture of Abraham Lincoln?" were among the inquiries of Press Club members last Thursday night as they went from house to house on a scavenger hunt.

The club met in the high school gymnasium at 7 o'clock. About 7:45 they divided into groups of five, each group was given a list of articles to get, and the group who got all of the articles of the list first, received a prize. A consolation prize was given to the group finding the least number of objects required on the list.

By 9:00 o'clock all the groups were back at the school building where refreshments of punch and cookies were served.

Sports Shorts

The girls are having a baseball tournament, the same as the boys had, with a prize for the victors. So the time has come when all these deep-throated males must yell, and back their respective classes to the best of their ability. Poor girls, what backing.

Wesley Cox has been working very hard on the basketball team so far this season. Wonder if a certain girl that he has been going with lately has anything to do with it. Some girls, you know, desire stars for their sweethearts. Yow-sah.

M. E. Bagwell, a junior, coming from Claude, will be a mainstay in the fair sexes basketball attack this coming season. We juniors are proud of her, too.

Somewhere in the near future (probably tomorrow) the girls' team will play in a basketball tournament at Dimmitt. Here's wishin' you all the luck in the world, so bring back the cup to ye olde C. H. S.

Curtis Ellison and O. M. Solomon, two year lettermen, will be indispensable to the Eagles' basketball quintet this year. They are veterans of the first class, and how!

There's a big schedule ahead for both girls and boys; so let's all of us try to help them along as far as we can.—Jack Taylor.

Jones In Charge of Physical Ed. Class

The boys' physical education class under the direction of Coach Jones, meets on Tuesday and Thursday of each week.

There are between ten and fifteen boys reporting for this class, which spends a full hour in taking exercises, boxing and playing basketball. The athletic department expects to get a mat in the future in order that a class may be started in tumbling and wrestling.

MEYER SPEAKS ABOUT CHANGES IN CURRICULUM

Teachers of County Meet With Canyon Public School Faculty For Second Curriculum Study.

Dr. A. M. Meyer was the principal speaker last Tuesday, Dec. 4, when teachers of the public schools and the rural districts met in the high school dining room at 7:30 to study curriculum changes.

The subject of Dr. Meyer's talk was "Preliminary Aspects of Curriculum Revision." There are two classes of philosophies of education that still exist. There are (1) the teacher as an autocrat, and (2) the school life in which the students help operate the school. Some of the past philosophies are: religious knowledge of power, social-civic usefulness concept, and liberal education.

Under the school as life philosophy, one aim of education is to train young people to work as a group. The instructors should teach that one's own life is only a small part of human life, and that he must be happy.

School curriculum reflects all aims of life and education. Educating one's self should lead one to live a well-rounded life.

Curriculum should be shot thru with interest. Those children who have had meager glimpses of life, should be interested in life thru the curriculum of the school.

Dr. Finley of the University of Manchester, in England, says, "It appears that there is only one aim in education: the nurture of human spirit."

Dr. Meyer closed with a quotation from Glen Frank's "Thunder and Dawn" stating the stabilities of western civilization.

Dramatics Group Gives Play Tues.

A play, "The Return of Buck Gavin," was the program for the Dramatics Club Tuesday afternoon, December 4th.

The characters were: Buck Gavin, Joe Frank; Mary Gavin, Myrtle Chitwood; Sheriff, Sewell Cox.

The play was about an outlaw, Buck Gavin, who came home to see his sister, Mary Gavin, and was taken prisoner by the sheriff. Buck's one aim on his return trip was to place flowers on his dead friend's grave, but he was taken before he had a chance; therefore he asked his sister to put the flowers on the grave for him.

After the play a short business meeting was held and characters appointed for a Christmas play.

Supt. I. B. Carruth, Mr. and Mrs. Ray Callahan, and Supt. R. A. Fisher of Pampa, picnicked in the canyons, Sunday.

Mary Collins spent the week end with Marielle Oldham and Billy Louise Greenfield.

Parents Give Football Boys And Pep Girls Banquet Fri.

Senior Discovers Unknown Room

By Roy Phillips

Strange things do happen! I have been in school three years and the existence of one room in Canyon High School came to me only the other day. This room is situated on the third floor between the book room and the mechanical drawing room. It is a "junk" room for the school.

There are shelves on three sides of the room and upon these are chemical, physics, and musical instruments. On the floor are discarded text books, pictures, large scientific apparatus, and coils of wire.

The room has two west windows which give it full benefit of the wind and dust. Everything is covered in a snug coat of dirt.

Many High School Students Work To Pay Own Expenses

In order to help pay their expenses, several students work after school. Among the different occupations are shining shoes, delivering milk, working in filling stations, and different stores, keeping children, setting hair, milking cows, and doing house and farm work.

After school hours Raymond Biddle works in Hunt's Grocery Store. Roland Black shines shoes in the Palo Duro Barber Shop, while Bill Cone is employed in the Star Barber Shop. Hampton and Leslie Lisle work in their father's feed store.

Sarah Bonnie Bourn competes closely with the boys as an expert "milk-maid." She often helps with the work on her father's dairy. Ruth McCrerey delivers milk for her father, who owns a dairy. Several of the younger boys deliver milk, while others work on dairy farms. Gus Brown works at Babe Monroe's before and after school. Joe Morris delivers milk for Bourn Bros. Dairy.

Carl Prichard works for the Magnolia Petroleum Company, and Wade and Boots Johnson work at their father's filling station.

When Sewell Cox was asked what work he does, he said, "Well, I spend 30 minutes every morning cleaning up my room." Sewell says he milks mornings, and Wesley milks at night.

Several of the girls keep children after school and nights. Billy Greenfield keeps Felix Neff's children, and Arnetta Kirkpatrick and Mary Catherine Wirt keep Mark Foster's children. Jewell Chambers keeps the Word children, and Margaret Nicholas cares for Terry Mayben's children. Ruby Foster types for Miss Elva Fronabarger.

Myrtle Chitwood works for Mrs. Lee Foster, and Nelson Robinson works for the Western Union.

Grade Girl Scouts Take Hike Friday

To experiment in building fires and cooking a non-utensil meal, the Grade Girl Scouts of the Thistle Troop and their sponsor, Miss Lois Goodrich, hiked to the North Creek, Friday, at 3:30 p. m.

Seven of the twelve girls had just passed their tenderfoot test and this was their first hike. Sitting around the fire after they had eaten their picnic lunch, the scouts sang. Among the new songs they learned are "Each Campfire Lights Anew," "Bagpipes," "Evening Prayer," and "Jogging."

At 7:30 the girls walked back to town.

Parents of the football boys and pep squad girls, with Mrs. Joe Black as chairman, planned and prepared the largest football banquet ever sponsored in the history of Canyon High School, and served it to the football boys, pep squad girls, and members of the band, and friends of the team at the American Legion Hall, Friday, December 7th.

J. H. Cox, Jr., the toastmaster, first introduced the Rev. Charles L. Dickey, who gave the following toast to the boys: "May you always be as fair and square in the game of life as you have been on the gridiron."

G. W. Cox in a talk, "Why I Want My Boy to Play Football," gave as reasons, the working toward a goal, practice of abstinence, elimination of strife, and the meeting on a level all of which football makes possible.

Coach Jones recognized players who will be graduated this year, and said that he would like the '35 Eagles to fill the shoes of the '34 team.

Mr. Carruth expressed appreciation to all those who have helped the football team and pep squad, and also introduced Wesley Cox, football captain-elect of '35.

Frosh Home Ec. Club Has Christmas Party Mon.

Filling Christmas stockings for the needy was only one of the first year Home Economics Club projects decided upon at their party Monday night. Zella Laughery, at whose home the party was given, was hostess with Lucile Crowley and Gladys Hutton.

Business was dispensed with first. It was decided that each girl should fill a stocking with fruit and nuts and, if possible, a toy to be given to families whom Santa Claus will not visit. The club members are to make a bed for a certain baby in town.

The program was made up of a talk, "Christmas Customs in Holland," Annie Mae Spencer; a discussion on "How American Christmas Customs differ from those in foreign lands," Polly Little; and Christmas carols sung by the group. Cocoa, marshmallows and cookies were served before the club adjourned.

Thirty-First: A trustee's deed from Albert L. Randall, trustee to S. J. Hott, dated July 5, 1932 and recorded in Volume 67, Page 66 of the deed records of Randall County, Texas.

Plaintiff further alleges that some question has arisen as to the

validity of sale of said property by the substitute trustee and the deed executed by Albert L. Randall, substitute trustee to S. J. Hott, which said deed is dated July 5, 1932 and recorded in Volume 67, Page 66 of the deed records of Randall County, Texas, by reason of some irregularities connected with said sale. Plaintiff says that said sale was regularly made at the court house door of Randall County, Texas, in strict compliance with all of the terms of the deed of trust under which same was made after notice had been given as required by the provisions of said deed of trust of the time, place and terms and conditions of said sale that said property at said sale was bid in by the plaintiff, S. J. Hott, that said sale and the purchase by the plaintiff was in all things regular and strictly in accordance with and in compliance to the terms of the deed of trust herein referred to and under which said sale was made.

Plaintiff alleges that by reason of the irregularities mentioned in connection with the sale of said property by the substitute trustee causes a cloud upon the title to plaintiff's property above described and this suit is brought for the purpose of removing the cloud from the title to said property.

Wherefore plaintiff prays that the defendants be cited in terms of the law to appear in answer to this petition and that, upon hearing, he have judgement removing any and all clouds from plaintiff's title to the above described land, for costs of suit, such other and further relief, general and special in law and in equity that he may show himself justly entitled.

Second Count

Plaintiff further represents to the court that on or about the 5th day of July, A. D. 1932, he was lawfully seized and possessed of the following described land and premises situated in Randall County, Texas, holding the same in fee simple by virtue of the chain of title presented in the first count of this petition, that the land and premises, as described as Lots Nos. 2 and 5 in Block No. 90 of the Mrs. M. D. Oliver-Eakle Addition to the City of Amarillo, Texas, said land being located in Randall County, Texas.

That on the day and year last aforesaid the defendant, W. H. Neely, his unknown heirs, his and their heirs and legal representatives, H. W. Neely, his unknown heirs, his and their heirs and legal representatives unlawfully entered upon said premises and ejected plaintiff therefrom and unlawfully with-hold from him the title and possession of and to his damaged, \$1,000 wherefore plaintiff prays judgement of the court that the defendants and each of them be cited to appear in answer to this petition that he have judgement for title and possession to the aforesaid land and premises above described and that a writ of restitution be issued for damages and costs of suit for such other and further relief, special and general, in law and in equity, that he may be justly entitled.

Third Count

And plaintiff further represents to the court that, if he be mistaken in counts one and two above, that he pleads as follows:

That on or about the 5th day of February, A. D. 1931, the defendant, W. H. Neely, made, executed and delivered to the Panhandle Improvement Company, one promissory vendor's lien note in the sum of \$900 due on or before six months after date bearing interest from date at the rate of 10% per annum until paid with all past due principal and interest to bear interest at the rate of 10% per annum until paid, said note executed by W. H. Neely and payable to the order of the Panhandle Improvement Company.

That said note provides for the usual 10% attorney fees on the amount of principal and interest; then due in the event suit is brought on said note or same is placed in the hands of an attorney for collection against the defendant, W. H. Neely became bound and liable to pay and promised to pay to the Panhandle Improvement Co. the said sum of money together with interest and attorney fees therein specified. Said note was given as a part of the purchase money for Lots Nos. 2 and 5 in Block No. 90 of the Mrs. M. D. Oliver-Eakle Addition to Amarillo, in Randall County, Texas, which the Panhandle Improvement Co. deeded to W. H. Neely on Feb. 5th, 1931 which deed is recorded in Vol. 63, Page 501 of the Deed Records of Randall County, Texas, in which it retained a vendor's Lien to secure the payment of said note. Plaintiff purchased said note in due course of trade before maturity, and is now the owner and holder of said note and lien. That on July 31st, 1931 the defendant W. H. Neely renewed said note and lien by the execution of two notes one for \$943.75, and one for \$56.25, each due on or before one year after date, bearing interest at 10% from date until maturity, and providing for 10% attorneys fees, and as additional security executed a deed of trust in favor of plaintiff on said property to secure the payment of said notes; which said deed of trust is recorded in Vol. 22, page 202 of the deed of trust records of Randall County, Texas. That said notes are long past due and unpaid and defendants have refused to pay same or any part thereof to plaintiff's damages in the amount of principal, interest and attorney's fees. That plaintiff is the owner and holder of said notes and has placed them in the hands of W. J. Fleisher an attorney for collection and has contracted to pay him the 10% attorney's fees specified therein.

Plaintiff prays for citation by publication as the address and residence of all Defendants are unknown, for his debt, interest and attorney fees and cost of suit and for foreclosure of his lien and for sale of the property above described according to law and for general and special relief in law and in equity.

Herein fail not but have before said Court, at its next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Canyon, Texas, on this 6th day of December, A. D. 1935.

**Fossil Bones
Being Restored****W. T. Students Are To
Aid In The
Work**

Restoring the bones of the prehistoric animals that roamed the Texas Pampas long before Coronado crossed them is the bit of interesting work being done by Professor Stuart Johnston of the Archaeology and Paleontology Department. At present, Mr. Johnston is replacing bit by bit the bones of the lower jaw of a shoveled mouth Mastodon. The fragments of the animal's jaw were dug up near Canyon, where, no doubt, lies the remains of many such animals which await reconstruction by scientists to reopen closed chapters of the ancient animals and their habits that lived in this section of Texas in the pre-historic past. A fine collection of elephant teeth will be on display shortly. These teeth were found in the fossil beds near Canyon. Some of these teeth belong to what then were the largest mammals or warm blooded animals and much larger than the present day elephant.

Professor Johnston is also restoring the upper leg bone of the Imperial Elephant, the largest of the mammals, and, when it is completed it will give a tangible idea of the size of these creatures. The leg bone, due to centuries of decay and exposure, was in many pieces when found; and in order to restore it as it originally was, Professor Johnston used an iron pipe one inch in diameter as the nucleus, and with the aid of glue, shellac, and plaster of paris, he will have the bone as it originally was.

An exhibition of the pre-historic past of this region will be displayed in the Museum as soon as these skeletons and bones are finished. Professor Johnston will take his classes semi-weekly to nearby sites of discovery where more bones and skeletons will be dug for by the students themselves. The students will also be allowed to restore the bones just as Professor Johnston is doing now.

This new department of education is expected to develop into a great thing for West Texas State Teachers College. In the past the college has not offered any courses in Archaeology and Paleontology, but the annexation of these to the course of study is expected to make another step toward the enlightenment of our students.

**Chamber Commerce

I Buy At Home

Because my interests are here. Because the community good enough for me to live in is good enough to buy in.

Because I believe in transacting business with my friends. Because I want to see the merchandise.

Because I want to get what I want when I pay for it. Because every dollar I spend at home works for the community in which I live.

Because the man I buy from stands back of the goods. Because here I live and here I hope to die.

Because the man I buy from pays his part of town, county and state taxes.

Because the man I buy from helps support my school, my lodge, my church, my home.

Because when ill luck, misfortune or bereavement come, the man I buy from is here with his kindly greeting, his pocket-book, if need be.
